

ENERGY STAR® APPLIANCES

Air Purifier: \$25

Room air purifiers remove fine particles, such as dust and pollen, from indoor air. An ENERGY STAR model could save about \$144 in energy costs over its lifetime.

Clothes Washer: \$25

ENERGY STAR clothes washers use 25% less energy and 33% less water compared to standard models.

*Rebate available for homes with electric water heaters only.

Dehumidifier (portable): \$25

Dehumidifier (whole-home ducted): \$200

ENERGY STAR dehumidifiers have more efficient refrigeration coils, compressors and fans than conventional models, so they use less energy.

Heat-Pump Water Heater: \$150

ENERGY STAR qualified heat-pump water heaters can save a four-person household about \$330 per year on electric bills compared to a standard electric water heater.

LED Lighting: \$1.50 – \$4

ENERGY STAR lighting uses up to 90% less energy than traditional incandescent bulbs and lasts at least 15 times longer.

Room Air Conditioner: \$25

ENERGY STAR room air conditioners use less energy than standard models and often include timers for better temperature control.

Using electricity wisely can reduce energy bills, improve comfort and protect the environment.

The Bright Energy Solutions® program provides cash rebates (or bill credits) to help make your energy choices easier.

HEATING & COOLING REBATES

Air-Source Heat Pump (electric backup):

\$150 – \$400

Air-Source Heat Pump (gas/propane backup): \$800 – \$1,200

Air-source heat pumps provide up to three times the amount of energy they consume. Use a certified Quality Install contractor and receive an **additional \$100 rebate**.

Central Air Conditioner: \$150 – \$300

High-efficiency models will cut your cooling costs. Use a certified Quality Install contractor and receive an **additional \$100 rebate**.

Mini-Split Heat Pump: \$250 – \$500 per outdoor unit

Mini-Split Air Conditioner: \$200 per outdoor unit

Mini-split systems use multiple indoor units connected to an outdoor unit via refrigerant lines. These highly efficient systems allow for customized heating and cooling in each space.

Central A/C or Heat Pump Tune-up: \$30

Tune-ups keep your equipment running efficiently and help cut cooling costs. Apply for this rebate every other year.

Geothermal Heat Pump: \$200/ton

Geothermal heat pumps are among the most efficient and comfortable heating and cooling technologies available because they use the earth's natural heat to provide heating, cooling and, at times, water heating.

ENERGY STAR Smart Thermostat: \$25

Smart thermostats automatically adjust to save energy when you are asleep or away. They can be controlled remotely using a smartphone, tablet or computer.

ELECTRIC VEHICLES (EVs)

ChargePoint® Home Charger: \$500

Connect a WiFi-enabled ChargePoint Home Flex charger to your local utility and receive a \$500 rebate. ChargePoint Level 2 residential units charge your EV up to nine times faster than a wall outlet. They are ENERGY STAR certified and update automatically. Use the ChargePoint app to schedule and track charging, get reminders to plug in, and find places to charge away from home.

EV Survey: \$50

EV owners who do not qualify for the \$500 rebate above can get a \$50 reward simply for sharing their vehicle and charging information with us.
